# THINK DIFFERENTLY. TRAIN DIFFERENTLY.

## Why should I take advantage of the FREEdom Program?

- I have nothing to lose. GeoLearning doesn't collect any billing information from me, so there is no way I can be billed for using these 10 courses.
- I want to offer no-cost, consistent training across my department or my organization.
- I would be a superstar if I could document that each employee had completed Sexual Harassment Prevention training without incurring any cost.
- The content variety is great! There is something for everyone to learn from in these courses.
- With nothing to install and 24x7 availability, this would be really easy for everyone in my department or organization to access.

## Why wouldn't I take advantage of the FREEdom Program?

- Free is still too much. I'll wait for a better offer...like when someone offers to pay me to take training.
- Everyone in my department or company is already an expert in the topics offered in the 10 free courses.
- I don't need to take or offer Sexual Harassment Prevention training in my workplace. We don't mind the risk of litigation.
- I'd much rather spend my budget dollars than get the same training for FREE.
- I'll just contact my IT department and ask them to help me put some training online. They generally put me at the top of their list of things to do.
- I'm afraid that there has to be a catch. Nothing is free—especially in these chaotic economic times.

*There's just no good reason not to take advantage of the FREEdom Program!*
